

Three-Page Provenance Trial

1. Introduction

Sela Nix, affiliated with the fictional Cloudmere Observatory, proposed the Long Arc Method for linking weather cells to telescope interruptions. Oren Pike curated the invented Cloudmere Night Dataset.

2. Method

The Long Arc Method consumes Cloudmere Night Dataset and preserves each sentence that links Sela Nix, Cloudmere Observatory, and Oren Pike.

The resulting work is named the Long Arc Interruption Ledger.

3. Findings

Cloudmere Observatory published the Long Arc Interruption Ledger.

Sela Nix authored the Long Arc Method; Oren Pike maintained the dataset.
